Besides an unshapely waistline, outsize hips and heavy thighs aren't pretty either. Of course, you want to do something about them. Well, put on your playsuit, turn on the music and let's go. The same old thing is the answer: exercise, but in a new way.

## 'Twelfth Night' Given in Open At Ashley Hall

By LILA GILMORE

Shakespeare could not have wished for a more charming background for his "Twelfth Night" than that afforded by the Ashley Hall garden on the evening of May 29. The evening was cool and clear with stars with a memorial service in the Methodist church this morning at 11:15 o'clock. The Rev. out and mosquitos absent.

Not only was the play well attended, but the audience seemed to feel the spell of a well-acted Shakespearean play from the beginning of the first act.

E. W. Holmes, pastor of the First Baptist church, chaplain major in the first separate battalion, South Carolina Defense force, preached the sermon.

As it was enacted entirely out of doors, the "curtain" went up when the light was turned on the stage.

In writing up the play, there is a temptation to take each actor inturn and give a word of description of her performance, but as space is not sufficient for that, let to the mentioned that Edith Bickle made a memorable Duke Orsino; that Barbara Pierce was thrilling as Viola; Anne Kelly made a fascinating Malvolio and Pamela Chambers a most amusing clown; Jean Montieth and Betty Bowers made an entertaining pair as Sir Andrew Aguecheek and Sir Toby Belch.

Perhaps one reason that the music was particularly effective was because of the first separate battalion and a naval unit from the Charleston district marched to the service in a body.

Under international law, enlisted prisoners of war must work and are paid accordingly. Those in the clearing camp volunteered to work before being brought in. Their pay, according to agreement, is eighty cents a day. Each prisoner is allowed ten cents a day in canteen credits for purchases at the canteen. Allowances will be repaid by the German government after the war. They work a five-day, forty-eight-hour week. After adjusting themselves to the routine, their work will be the same done by regularly hired workmen elsewhere in the reservoir area.

Do Not Relish "P. W."

The nearest "beef" from the prisers was about their camp garb, with "P. W.", for prisoner of war, in large red letters across the seats of trousers and backs of jumpers. They took it in better spirit, however, when told they would be allowed to wear their German uniforms on Sundays, if they earned the privilege.

On Denison Dam Job

Denison, Texas, May 30—(AP): Former members of Hitler's crack Africa, have substituted crosscut saws for rifles and an axeman's swing for the goosestep as they help clear land for the Denison dam reservoir in this country's first war prisoner project of its type.

These youthful German soldiers, in keeping with the international law which the United States is observing to the letter, are contributing to the American way they set out to destroy. Their use is necessary because sufficient labor is otherwise not available to clear land in the dam basin ahead of the water, due to start rising in June.

The first contingent recently occupied one of two internment camps in the Oklahoma reservoir area. Together the installations form the Madill provisional internment camps, under command of Lieutenant Col-
